Document Delivery

8/1

Notes: Statistics for various kinds of on-grounds delivery. Darden's figures are included in the University Library's stats. Law does not have a delivery service. Some of the types of deliveries are overlapping, e.g., both electronic and Ivy Stacks deliveries can also be LEO deliveries. ISS deliveries are hard-copy items delivered to Instructional Scanning Services to be scanned and linked to ToolKit (electronic reserve).

Regular and Reserve Circulation by Library

8/1

Notes: Includes regular initial and renewal circulation, and reserve circulation; reserve includes renewals since there are so few reserve renewals. Reserve is defined as any item with a loan period of fewer than 7 days. Numbers are compared to previous year with percent change.

Regular Initial and Renewal Circulation

8/1

Notes: Includes initial and renewal regular circulation, but not reserve or in-house use. The bump in circulation for 1996 is due to the implementation of Sirsi as our online catalog. Items from NOTIS were rechecked-out in Sirsi. It also became possible for patron to renew their own books online; they typically renew all items at once regardless of due date, which artificially inflates the renewal numbers.

Reserve Circulation by Library

8/1

Notes: Includes initial and renewal "reserve" circulation. Includes all items that have a loan period of fewer than 7 days. The increase in Alderman's "reserve" circulation derives from the laptop program; Chemistry stopped providing reserve materials in 2000/01. Health Sciences figures for 1999/00 include only what circulated from their reserve desk; Health Sciences figures for 2000/01 and after are calculated using ARL standards.

Circulation of Non-Standard Materials by Library

8/1

Notes: Regular initial and all reserve charges for special item types and all patron profiles, by library.

Videos, audio formats, journals, and laptops comprise most of the non-standard materials circulation. The numbers demonstrate the popularity of the new laptop program. In FY 1999/2000, there was no laptop circulation; this year laptops are over 11% of non-standard circulation. Videos, audio formats, and journals retain positions similar to last year.

Instructional Scanning Services

8/14

Notes: Files includes all digitized course materials put in Toolkit by the University Library regardless of source, from summer session through spring session. We were not able to determine the number of hits for 1999-2001 as the server being used is ITC's responsibility. Many items are now being linked from full-text databases rather than being digitized from paper and some are transferred by faculty to the current semester from previous semesters. In addition, beginning with the 2000/02 fiscal year, the digitizing unit began counting differently. Rather than count a single scan 5 times if it was posted to 5 sections of a course, it is now being counted only once. In 2001/02 the database queries were revised. The numbers below reflect that revision; some are different from those previously reported.

Shelving

8/3

Notes: Data are partial for the first year of the shelving program(1999/2000): from Sept through June for SEL, and for Spring semester for Fine Arts, and Clemons. For smaller libraries marked with *, the data is based on a 1 week sample done in the middle of each semester; number of items shelved is for that time period only. The number of items shelved may include items that were used in-house as well as new books and those discharged.
