

Preservation

Preservation functions are performed centrally in Alderman for University Library units other than Small Special Collections. Binding is processed centrally for all units.

¹ Reformatting includes preservation photocopying, microfilming, and digitizing library materials.

² In FY11, a special Music Library project converted 216 obsolete audio file formats to digital format.

³ The increase for FY12 was caused by two projects: the Ivy Stacks Retrofit generated many preservation treatments; another major project was the conversion of news film clips from WSLs in Roanoke, VA from 1851-1971 to digital format.
