## Document Delivery

Notes: Statistics for various kinds of on-grounds delivery. Darden's figures are included in the University Library's stats. Law does not have a delivery service. Some of the types of deliveries are overlapping, e.g., both electronic and Ivy Stacks deliveries can also be LEO deliveries. Toolkit deliveries are hard-copy items delivered to Central Digitizing Services to be scanned and linked to ToolKit (electronic reserve).

## Regular Initial and Renewal Circulation

Notes: Includes initial and renewal regular circulation, but not reserve or in-house use. The bump in circulation for 1996 is due to the implementation of Sirsi as our online catalog. Items from NOTIS were rechecked-out in Sirsi. It became possible for patron to renew their own books online; they typically renew all items at once regardless of due date which artificially inflates the renewal numbers.

## Reserve Circulation by Library

Notes: Initial and renewal "reserve" circulation. Includes all items that have a loan period of fewer than 7 days. The increase in Alderman's "reserve" circulation derives from the laptop program; Chemistry stopped providing reserve materials in 2000/01. Health Sciences figures for 1999/00 include only what circulated from their reserve desk; Health Sciences figures for 2000/01 are calculated using ARL standards.

## Circulation of Non-Standard Materials by Library

Notes: Regular initial and all reserve charges for special item types and all patron profiles, by library.  
Videos, audio formats, journals, and laptops comprise most of the non-standard materials circulation. The numbers demonstrate the popularity of the new laptop program. In FY 1999/2000, there was no laptop circulation; this year laptops are over 11% of non-standard circulation. Videos, audio formats, and journals retain positions similar to last year.

## Electronic Reserve (Toolkit)

Notes: Files includes all files put on e-reserve in Toolkit by the library regardless of source, from summer session through spring session. We have not been able to determine the number of hits since 1999/00 as the server being used is ITC's responsibility. Many items (251) are now being linked from full-text databases rather than being digitized from paper and some (77) are transferred by faculty to the current semester from previous semesters. In addition, beginning with the 2000/02 fiscal year, the digitizing unit began counting differently. Rather than count a single scan 5 times if it was posted to 5 sections of a course, it is now being counted only once.

## Shelving

Notes: Data is partial for this first year of the shelving program: from Sept through June for SEL, and for Spring semester for Education, Fine Arts, and Clemons. For smaller libraries marked with \*, the data is based on a 1 week sample done in the middle of each semester. The number of items shelved may include items that were used in-house as well as those discharged.

## User Instruction

Notes: The rise in the number of participants is due partly to large numbers of students attending classes on jazz in the Music Department. In addition, User Education has replaced "drop-in" courses with "by request" courses, which results in higher attendance at fewer classes.
